In *Musical Theater Club*, kids will develop their skills as singers, dancers, and actors through many fun games and activities that include imitating, acting out, creating a dance, and more. In *Musical Theater Club*, we will play games that utilize

imagination and energy, build on children's ability to focus, problem solve, and cooperate. *Musical Theater Club* games will help children activate the creative portions of their minds, role play difficult emotions, learn to trust and cooperate with one another, and to better understand themselves. It is also a lot of fun and a great chance to work out some physical energy in a positive way.
